

CONSIDERATIONS REGARDING THE ASSESSMENT OF THE RATIO BETWEEN COSTS AND BENEFITS DURING THE PRODUCTION AND THE RELEASE OF THE ACCOUNTING INFORMATION

Mirela BABA (SURDU)¹

Abstract: *The value of any product or of any information is taken into account as a result of the price - quality report. The present study draws a parallel between the costs of producing accounting information as the final product of accounting and the benefits obtained after its release.*

Key words: *benefits, costs, accounting information, accounting information quality.*
