

FOOD PRODUCTS SAFETY IN EUROPEAN UNION AND ROMANIA

Nicoleta Andreea NEACȘU¹

Abstract: *In the economy of a country, the quality problems and the food safety have an important role of the people health. In a market economy the consumer has a dominant position. He is the reference element of all the actions made by producers and trades. After the “Mad cow” disease in Europe, an important part of the consumers lost their trust in the quality and the safetness of food products. The present strategy of EU is the regain the trust of the consumers from the member states, by adopting concrete legal actions.*

Key words: *European Union, food safety, consumers protection.*
