

# CONSUMER PROTECTION REGARDING ILLEGAL CONTRACTS IN USA

Anca MADAR<sup>1</sup>

**Abstract:** *We are all consumers. Top executives, assembly-line workers, the unemployed, housewives and children - all must consume food, clothing and shelter in order to survive. In a very real sense we could speak of any business or other group as consuming such things as natural resources, energy, labor and capital. But in this paper work, the term consumer refers to one who acquires goods and services for personal or household use. Although the freedom of contracts is guaranteed by the Constitution, this freedom is not without limits.*

**Key words:** *consumers, contracts.*
