THE IMPACT OF FEATURE WEIGHTING ON THE FUZZY ARTMAP NEURAL NETWORK

A. CAŢARON[1]   L.M. SASU[2]   R. ANDONIE[3]

Abstract: *The paper presents an extension of the Fuzzy ARTMAP model that employees the feature weights in the determination of the ART categories. The features weights measure the relative importance of each input in a data classification task.*

Key words: *machine learning, feature weights, fuzzy ARTMAP.*
