

# REHABILITATION OF SOILS AFFECTED BY LEACHATE WITH HIGH HEAVY METALS CONTENT

Z.A. HOBINCU<sup>1</sup> M. SANDOR<sup>1</sup> A. DUȚĂ<sup>2</sup>

**Abstract:** *Wastes management is a key-issue in sustainable development and represents a problem in most of the Romanian urban agglomerations. The paper presents field studies developed on the heavy metal content in the landfill of Covasna, as first step in a complex approach, aiming to identify remediation solutions.*

**Key words:** *wastes management, landfill, heavy metals.*
